## EVENT RECAP

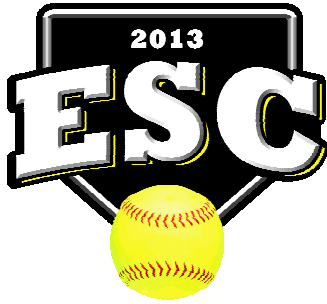

The first annual Engineering Softball Classic was held at St. Louis King of France Ballfield on July 20, 2013. Seven teams from engineering firms around the Baton Rouge area participated in the tournament, which benefitted St. Jude's Children's Research Hospital. The tournament included some exciting games, ending with a championship game featuring Audubon Engineering and Willbros Engineers. Willbros edged out Audubon by one run to capture the championship.

Although softball was the main attraction, a major goal of the event was to raise money for St. Jude's Children's hospital. Through the generosity of all of the participants, sponsors, and fans, a grand total of \$8,602.58 was raised. In addition to the monetary donations, over 75 cards and pictures were made for the children at St. Jude's. The cards were greatly appreciated by St. Jude's, and they even sent a hand-written note expressing their thanks.

For this being the inaugural tournament, I would consider it to be a tremendous success. The participation, donations, and general excitement that everyone expressed about the tournament was truly remarkable. On behalf of Dan Forman and myself, I would like to once again, thank all who helped make this a successful event. We look forward to making this even better for years to come.

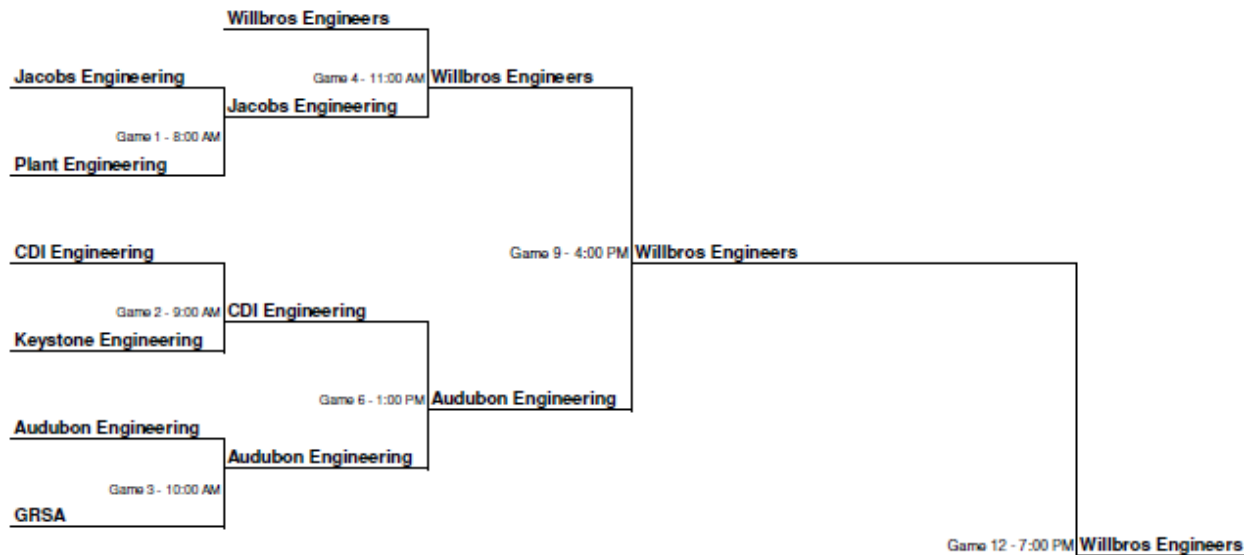

Tom Polito
