

THE 2015 ENGINEERING SOFTBALL CLASSIC

EVENT REPORT

THE 2015 ENGINEERING SOFTBALL CLASSIC

TOURNAMENT RECAP

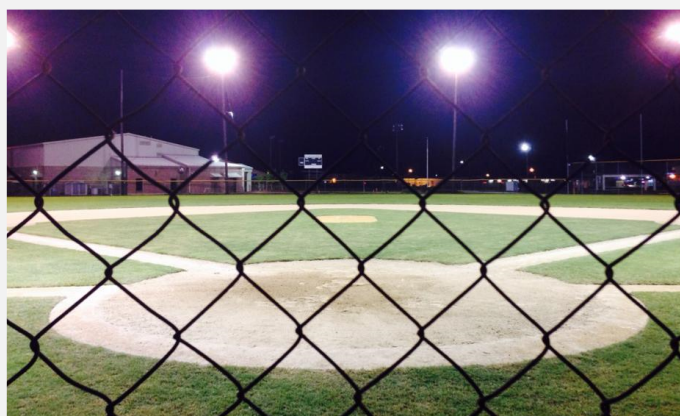

The spring of 2015 was one of the rainiest in recent memory. After having to postpone last year's tournament due to rain, there was concern that this year's tournament may be impacted by weather as well. The rain held off all week before the tournament, only to storm at the field the night before the ESC was scheduled to be held. Thanks to the tireless efforts of the grounds crew, and the patience of the teams playing the first games of the day, we were able to keep the fields in great playing condition and the tournament went on as planned!

While the rain stayed away on Saturday, the heat did not. The weekend of the ESC happened to be one of the hottest weekends of the year. Despite the heat, there was an amazing turnout. Our goal is to grow and expand the ESC each year, and we accomplished that goal again this year. We added one additional team, and welcomed three new companies to the tournament.

In this third year of the ESC, the level of competition continued to rise. This event has become not only a great fundraiser, but also a competitive softball tournament. There were some very exciting games including a couple of come-from-behind victories. This culminated in a championship game where the Sigma Gray team outlasted the CDI White team to claim the championship, becoming the third different company to win in three years.

As mentioned, the goal is to grow and expand the ESC each year. That not only includes the number of teams, but also the amount of money raised for St. Jude's. Do to the incredible support and participation from our sponsors and participants, we are very excited to announce that the Engineering Softball Classic raised **\$24,054.64** for St. Jude Children's Research Hospital! This brings the total amount raised in three years to \$48,177.55.

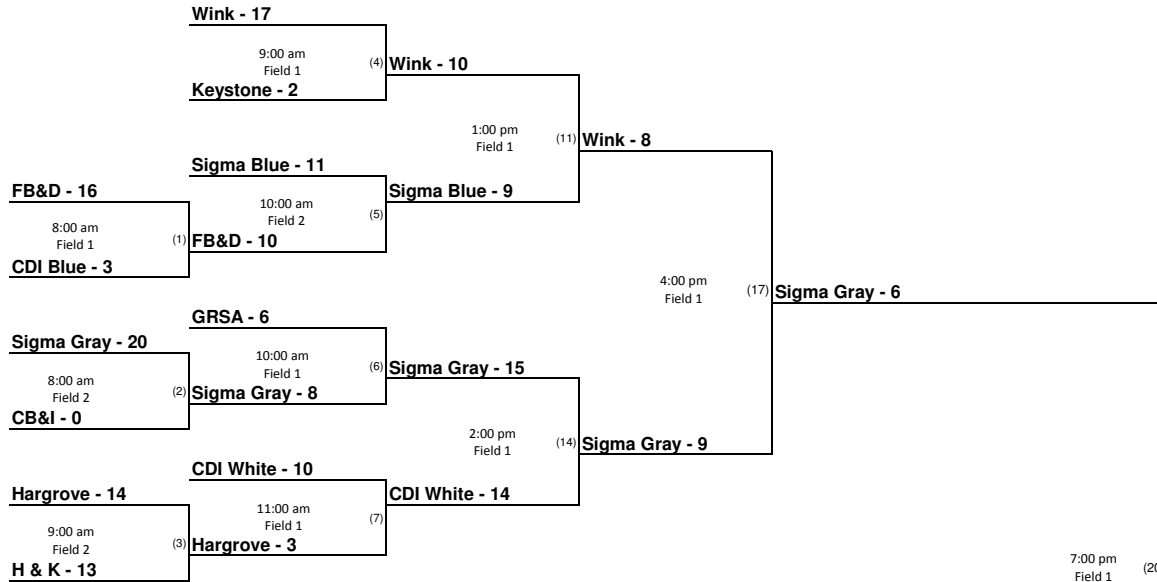

Thanks again to everyone who has supported the ESC and has helped make it such a great success!
