# THE 2017 ENGINEERING SOFTBALL CLASSIC

## TOURNAMENT RECAP

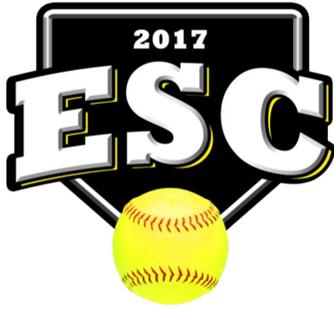

This year's installment of the Engineering Softball Classic faced its share of difficulties. From an unexpected postponement in May to a constant battle with rain in July, it seemed the odds were stacked against us. While we did experience a rain delay which caused some changes to the format of the tournament, including going to a one-pitch format, we were still able to get the games in. We appreciate the patience and flexibility that all of the teams exhibited while dealing with the rain. Despite all of those challenges, the tournament was once again a big success.

With each year that the tournament is held, the level of competition continues to rise. This event has continued to become not only a great fundraiser, but also a competitive softball tournament. There were some very exciting games including quite a few come-from-behind victories. In the Engineering Division, FB&D made it back to the finals to defend last year's championship. They faced a tough Sigma team that dominated its way through the bracket. Ultimately, Sigma would edge out FB&D to become the first team to win a second ESC Championship. In the Construction Contractor division, Cajun made it to their second straight finals appearance. Having come up just short the previous year, they faced a team from JVIC/Zachry who was participating for the first time. In a close game, Cajun was able to grab the victory.

Thanks again to everyone who has supported the ESC and has helped make it such a great success! And a special thanks goes out to the many volunteers that helped throughout the day. Without their untiring help, the ESC could not exist.

In addition to the concessions workers, scorekeepers, and all of our other key members, I'd also like to give a special thanks to the crew from JVIC/Zachry who not only donated all of the food and many drinks for the event, but also donated their time and efforts to cook for the event.

## TOURNAMENT RECAP

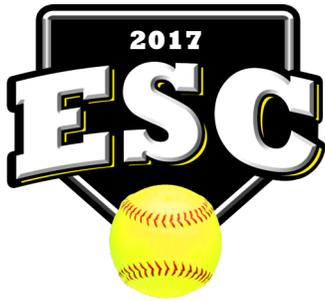

As we say each year, the goal of the ESC every year is to create a fun environment where people can interact with current co-workers, former co-workers, as well as people from other business competitors. We also raise money for a great cause in St. Jude Children's Research Hospital. We have been very fortunate over the past 5 years to have received a huge amount of support from the engineering and construction communities in the Baton Rouge area.

Many have heard the story before of when Dan Forman and Tom Polito set out to host the inaugural Engineering Softball Classic back in 2013. Not knowing what the level of interest would be in the event, they set a goal of raising \$1,000 for charity. That first year, the support and interest was overwhelming, and the total amount donated to charity was \$8,602.58.

Fast-forwarding to this year, the fifth annual ESC event, the interest and support has grown significantly. Despite all of the challenges this year, the ESC event raised **\$24,554.33**. That brings the five year total amount of money donated to the St. Jude Children's Research

Hospital to **\$100,095.61!**

	DATE <u>2013 - 2017</u>
PAY TO THE ORDER OF <b>ST. JUDE CHILDREN'S RESEARCH HOSPITAL</b>	\$ <b>100,095.61</b>
<u>ONE HUNDRED THOUSAND NINETY-FIVE DOLLARS AND THIRTY-SIX CENTS</u> DOLLARS	
Memo <u>FIVE-YEAR ESC TOTAL DONATION</u>
