## ESC CHARITY TOURNAMENT

---

### TOURNAMENT RECAP

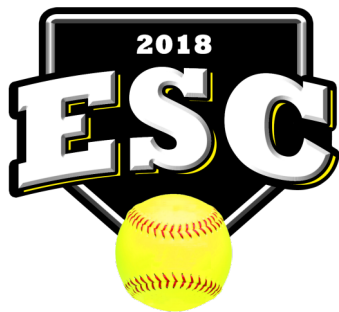

Last year's ESC tournament faced its share of challenges. Between a two month postponement and a two hour rain delay, the theme of last year quickly became "adapt and overcome". This year the hope was that the tournament would go a little more smoothly. Although rain threatened early, the tournament went on without a hitch. We could not have asked for better weather, which made for a very pleasant day at the ballpark.

As has continued to be the trend each year that the tournament is held, the level of competition continues to rise. This event has continued to become not only a great fundraiser, but also a competitive softball tournament. In the Engineering Division, FB&D made it back to the finals for a third straight year to face Sigma in a rematch of last year's championship. Sigma became the first back-to-back champion by beating FB&D for a second straight year in a one-run ballgame. They have now won 3 ESC titles in 4 years. In the Construction Contractor division, Cajun made it back to the finals for the third straight year. Although they have now made the finals every year since the inception of this division, they proved to be no match for Performance who one their first championship.

Thanks again to everyone who has supported the ESC and has helped make it such a great success! And a special thanks goes out to the many volunteers that helped throughout the day. Without their untiring help, the ESC could not exist.

In addition to the concessions workers, scorekeepers, and all of our other key members, I'd also like to give a special thanks to the crew from JVIC/Zachry, who once again donated all of the food and many drinks for the event, but more importantly, donated their time and efforts to cook for the event.

## ESC CHARITY TOURNAMENT

### TOURNAMENT RECAP

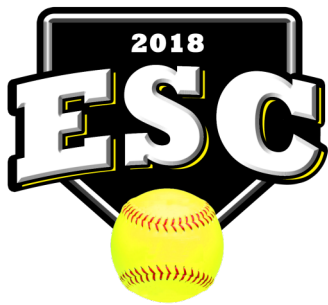

As we say each year, the goal of the ESC every year is to create a fun environment where people can interact with current co-workers, former co-workers, as well as people from other business competitors. We also raise money for a great cause in St. Jude Children's Research Hospital. We have been very fortunate over the past 6 years to have received a huge amount of support from the engineering and construction communities in the Baton Rouge area.

Many have heard the story before of when Dan Forman and Tom Polito set out to host the inaugural Engineering Softball Classic back in 2013. Not knowing what the level of interest would be in the event, a goal was set to raise \$1,000 for charity. That first year, the support and interest was overwhelming, and the total amount donated to charity was \$8,602.58.

Fast-forwarding to this year, the sixth annual ESC event, the interest and support has grown significantly. The 2017 event was the first time that we raised less money than the previous year. I can proudly say that trend did not continue this year. The 2018 ESC event raised **\$27,431.78**. That total sets a new yearly high!

With this year's donation, the total amount of money donated to the St. Jude Children's Research Hospital after six years is **\$127,527.39!**

	DATE <u>20 13 - 20 18</u>
PAY TO THE ORDER OF <b>ST. JUDE CHILDREN'S RESEARCH HOSPITAL</b>	\$ <b>127,527.39</b>
<b>ONE HUNDRED TWENTY-SEVEN THOUSAND FIVE HUNDRED TWENTY-SEVEN DOLLARS AND THIRTY-NINE CENTS</b> DOLLARS
